PROJECTS

Hackathon Project(03/2024)

A responsive website for controlling smart home devices that was created with React Js, Tailwind CSS, and Vercell. Worked as a team and build this website under 4 hours.

Link:<https://github.com/akashsaha02/KodeSphere-Hackathon-KnightCoders>

Nipro (09/2023)

A responsive agency website created using HTML, Bootstrap CSS, and media-query.

ABOUT ME

I am a flexible problem-solver with a strategic mindset and a knack for active listening. Skilled in React, HTML, CSS, Tailwind, Bootstrap, and MySQL, I specialize in crafting user-centric websites. Eager to contribute to innovative web applications, I am committed to professional growth and dedicated to making impactful contributions in dynamic environments.

SKILLS

- C
- C++
- Java
- JavaScript
- HTML
- CSS
- React
- SQL
- DSA
- Python
- OOPS
- DBMS

EXPERIENCE

- RnPSoft** January 2024 - April 2024
Web Developer Intern
Technologies: React.js, MongoDB, Express.js, AWS, Tailwind
 - Worked under a Team Leader to develop an Employee Management website. Enhanced front-end functionality using React.js and styled with Tailwind CSS. Managed data with MongoDB and Express.js, and deployed the application on AWS. Gained valuable experience in React workflow and teamwork.
- Oasis Infobyte** Jan 2020 - Dec 2020
Internship Trainee
 - Done three projects. The first one was a To-do list webapp, the second one was a calculator and finally the last one was a Tribute page for Steve Jobs.
